USISPF Initiatives

U.S.-India Tax Forum

The U.S.-India Tax Forum is USISPF’s specialised tax policy platform. The Tax Forum leads engagements with tax policymakers at both the federal and state level and helps in furthering recommendations that propel the ease of doing business environment and mitigating tax barriers to entry.

Launched in 2020, the Tax forum has since been a trusted platform bringing together public sector policymakers, global tax experts, and the business community at large to engage and advocate for a tax environment that is conducive.

Trade Task Force

The Forum’s Trade Task force is focused on proactively identifying strategies to strengthen the bilateral trading relationship. The Task force focuses on policy issues that impact industry invested in India and exporting to India. In addition to bilateral issues, the Task force looks at India’s trade policy in the region and actions at WTO as it relates to U.S. industry issues.

Climate and Sustainability

Hydrogen Task Force

USISPF has partnered with the US Trade and Development Agency to launch the US India Climate Technologies Action Group which facilitates the exchange of technology and capital to accelerate the clean energy sector. The Hydrogen Task Force is a collaboration with the Indian Ministry of New and Renewable Energy and the US Department of Energy to integrate the private sector into the deployment of hydrogen technologies.

USISPF Initiatives

U.S.-India Friendship Alliance

The US-India Friendship Alliance (USIFA) is a New York-based 501(c)(3) not-for-profit organization founded in 2004 to foster cultural, educational, and socioeconomic ties between the United States and India. By working with experts from government, business, academia, and civil society, USIFA creates collaborations that bridge the gap between values and meaningful change.

The Alliance focuses on healthcare access, educational opportunity, women's empowerment, environmental awareness and cultural enhancement. Our outreach and advocacy allows us to fund high impact initiatives that uplift vulnerable Indian communities neglected by conventional charities.

Letter from the President

Dear Members and Friends,

As the most important strategic partnership of the 21st century, the relationship between India and the United States is built on the foundation of a commitment to democratic ideals. The two countries share strategic interests in trade and defense and deep collaboration in the areas of energy, financial services, advanced technology, space, education and healthcare. At USISPF, we are grateful for the opportunity to serve the collective mission of many to strengthen the bond between the two countries.

The strength of the diaspora and the affinity that our people share makes clear the vast potential between the two countries when combined with corporate and government engagement. USISPF is the platform specifically designed to turn this potential into reality.

Together with advocates in both countries, USISPF is committed to creating the most powerful partnership between the United States and India. We look forward to having you join us on this journey.

Best Regards,

Mukesh Aghi
